

Drawing Noah's Ark

www.greenhouselearning.weebly.com

Dear Parents,

Today in English, we will continue to learn using the story of Noah's ark. This task below may not seem like an English lesson at all, but I promise you it is. It is a way of checking children's comprehension of the stories they are told, their understanding of the language they have heard, and their storytelling skills. The task will also engage your children creatively and help them with the motor skills required to draw. You may wish to do this task too so that you can model a good example. Your script is below.

Love, Greenhouse Learning x

In maths, I told you a story about Noah and his big boat, which was called an ark. I told you that he put two of every animal on his ark to keep them safe when the flood came.

What I thought would be a really good thing for you to do today is to draw 3 different pictures.

Your first picture will be of Noah, who was an old kind man with a big bushy beard, building his boat out of wood.

Your second picture will be of the animals walking or flying to the ark. Remember, there are 2 of every animal.

Your third picture will be of Noah and the animals on the boat, which is floating on the water.

Finally, use your words to tell the story of Noah's Ark to a grown up.

Coffee?

We believe that quality education is a human right and should be free for all, no matter who you are or where you come from.

If you do feel that you would like to say thank you by buying us a 'coffee' then that would still be very much appreciated.

We will use any coffee money raised to improve the reach of our services to ensure that all children receive the creative education they deserve. We may also treat ourselves to a flat white!

Finally, use your words to tell your story of Noah and his ark to a grown up.
